## 3MM and 6MM Btu/Hr Indirect Fired Line Heaters

Fourstar Resources Inc. is proud to announce the recent completion of 3MM and 6MM Btu/hr indirect fired line heaters. Our most innovative designs yet, these heater's features include:

- Twin type fire tubes (allows for physically smaller heater size).
- 8" Inlet and outlet nozzles with unique internal "manifold style" removable coil bundle, (6MM Btu/hr unit).
- CSA compliant burner management system.

### Put Us To Work For You....

Let our years of experience and innovative way of thinking help with the design of your next line heater.
